

Short bio:

Dr. Antoni (Toni) Forner-Cuenca recently started his appointment as Assistant Professor at Eindhoven University of Technology. Prior to that, Toni was a postdoctoral fellow in the Department of Chemical Engineering at the Massachusetts Institute of Technology under Prof. Fikile R. Brushett, where he focused on developing advanced porous electrodes for redox flow batteries. Toni received his Ph.D. from ETH Zürich (Switzerland) in 2016 where he worked with Dr. Pierre Boillat and Prof. Thomas J. Schmidt on developing novel gas diffusion layers with patterned wettability for advanced water management strategies in polymer electrolyte fuel cells. Toni has been the recipient of the ETH Zurich Medal 2017, the Electrochemical Society Energy Technology Graduate Student Award 2017, and the Swiss National Science Foundational Postdoctoral Mobility Fellowship.
